Y AFTER SCHOOL PROGRAM MODEL

Our Y After School program focuses on Enrichment, Cooking, Physical Activities, Crafts, Science, and Social and Emotional Learning. We provide a range of activities including:

- Homework help
- Enrichment activities
- Indoor/outdoor play
- Hands-on engaging activities
- Healthy Snack

We believe the values and skills learned early on are vital building blocks for life. Our enrichment curriculum provides children with the opportunity to explore their unique talents and interests, helping them realize their potential.

The way your child spends time after school can make a big difference in their personal development and your family-life balance. The YMCA's After School program makes the most of your child's after school time by offering enrichment learning opportunities designed to engage and expand young minds. Housed in large, open spaces inside local schools or a Y location, Y After School gives your child the opportunity to participate in active play and collaborate on fun projects. In the process, they'll continue to develop the physical, educational, emotional, and social skills which are proven keys for success.
